

ePLANS

AT A GLANCE

An Innovative Solution

Imagine an elegant and collaborative plan review tool that reduces errors, improves collaboration, shortens plan review cycles and delivers better results.

You've just visualized POSSE ePlans.

Our powerful POSSE ePlans module leverages an intuitive visual interface to guide your customers and stakeholders through a dynamic plan review process designed to save you both time AND money.

Seamless POSSE Integration

Seamlessly integrated with your POSSE workflows AND the industry-leading markup tools, POSSE ePlans is a complete product solution for your electronic plan review processes:

- Online plan submission, review, markup and version controls.
- Automated business process and plan review workflows.
- Flexible configurability unique to your business requirements.

- Robust workflow capability: move your ePlans through submission, review, and approval quickly and easily.
- Seamlessly integrated with your POSSE workflows.
- Online portal enables developers to submit electronic plans and receive markups.
- Automatically save marked-up documents back into POSSE.
- GIS location information mapped directly to project files enabling more informed decisions.
- 250+ document types supported.
- Reduces paper and printing costs.

POSSE ePlans streamlines the plan review and approval process.

Powered by POSSE: Winner of 18 International Awards including the Smithsonian Institute's collection of ground-breaking software.

Improved Planning Collaboration & Transparency

POSSE ePlans is designed to facilitate seamless collaboration amongst all plan contributors and reviewers with a powerful toolkit ideally suited to facilitate intra-organizational cooperation and efficiencies.

- Convenient comparative plan overlays enable easy and immediate analysis of plan changes, notes and current status(es).
- Open collaborative review and markup.
- A more comprehensive overview of project plans.

Quicker Plan Review Process

For developers seeking quicker turnarounds on development plans, POSSE ePlans delivers with a robust set of features that eliminates errors earlier in the planning process, increasing transparency and collaboration as plans progress towards key milestones.

- Multiple parallel plan review workflows.
- Unlimited document change history.
- Easy access document lists (including viewed and markup statuses).
- Auto-categorization making plans simple to locate and retrieve, eliminating the possibility of time consuming overwrite or deletion errors.

Reduced Plan Review Costs

With precision workflows pre-configured to the exact needs of your business stakeholders and a powerful public portal providing exceptional ease-of-use for your business customers, POSSE ePlans delivers a true win/win scenario – improving internal operational efficiencies while reducing planning delays and costs for the developer.

Your Enterprise Project Hub

- Every project stakeholder working in different roles, in different locations, on different schedules, can review projects anywhere they have Internet access.
- A simple email invitation opens the door to intra-agency collaboration, progressing joint ventures efficiently.
- Stakeholder and citizen access via a standard web portal/browser.
- All project documentation in one location with everyone viewing the same information. No need to connect to network drives or remote servers.
- POSSE ePlans provides intelligent workflows and the necessary collaboration, viewer & markup tools.
